

## John O'Halloran PhD DSc Graduate Student Supervision

1.	John Lusby	PhD	Current	Barn Owl ecology
2.	Vincent Murphy*	PhD	Current	The use of commercial forests by deer in Ireland
3.	Alan McCarthy*	2022	Current	Seasonal ecology and the conservation of hen harriers ( <i>Circus cyaneus</i> ) in Ireland
4.	Darío Fernández-Bellon*	PhD	2018	Responses to global change in a river passerine
5.	Will O'Shea*	PhD	2017	The evolutionary ecology of personality and life history variation in an anthropogenic heterogeneous landscape
6.	Lucas Jagodzinski*	PhD	2016	Compositional variation and hazards of wood ash in Ireland
7.	Cormac O'Callaghan	MSc	2015	Ecosystem services provide by plantation forests
8.	Richard Nairn	MSc	2016	Wind turbine impacts on shorebirds
9.	Usna Keating*	MSc	2016	Avian diversity and afforestation planning
10.	Edward Daly*	PhD	2014	The impacts of grazing on plantation forests in Ireland
11.	Xiaolin Chen	PhD	2014	Toxicity of manufactured nano-ZnO to <i>Lemna minor</i>
12.	Li Li*	PhD	2014	Comparing impacts of new cropping systems on biodiversity in tradition rural China
13.	Barbara Doerr*	PhD	2014	Biochemical toxicology of marine biotoxins
14.	Brian Dineen	PhD	2013	Algal toxins novel to Ireland
15.	Moira McCarthy	PhD	2013	Ecotoxicity of algal toxins to shellfish
16.	Bebhine Carey*	PhD	2013	Characterisation and ecotoxicity of algal toxins and
17.	Roz Anderson*	PhD	2013	Biodiversity of abandoned farmland
18.	Lauren Fuller	PhD	2013	Invertebrate diversity in Irish and British forests
19.	Robert Deady	MSc	2013	The importance of brash from felling and thinning activity in Irish plantation forests for fungus gnats
20.	Thomas Drinan*	PhD	2012	The impact of plantation forestry on lake water quality
21.	Hannah Denniston	MSc	2012	Exploring the relationship between declines in breeding Curlew <i>Numenius arquata</i> and habitat change in Ireland
22.	Tony Murray*	MSc	2012	The ecology of and Sandwich Terns ( <i>Sterna sandvicensis</i> ) and Roseate Terns ( <i>Sterna dougallii</i> ) in Ireland
23.	Steven Keady*	MSc	2011	Ground based LiDAR for forest biodiversity assessment
24.	Rebecca Martin	PhD	2011	The biodiversity of canopy invertebrates in a range of Irish forest types
25.	Elma Lahive	PhD	2011	Zinc metabolism by lemnaceae: patterns of accumulation, toxicity and trophic availability
26.	Maeve Boylan	PhD	2011	The ecology of the Chough in south west Ireland
27.	Alice D'Arcy	PhD	2011	Environmental and Ecological impacts of agri-food systems: a focus on potato production and distribution in Ireland
28.	Zuzana Skrabakova*	PhD	2011	Algal biotoxins in south west Ireland
29.	Olivia Crowe	PhD	2011	Recent patterns and trends in terrestrial bird populations in Ireland: their value in supporting bird conservation
30.	Rebecca Stirneman*	MSc	2011	What mechanisms are driving responses of migratory bird phenology to changing environmental conditions
31.	Lorna O'Mahony*	MSc	2011	The Use of Gastropod Molluscs and Vascular Plants as Indicators of the Impact of Cattle grazing on Fens in Counties Clare and Galway, West Ireland

32.	Oisín Sweeney	PhD	2010	Bird assemblages of native woodlands and non-native plantations in Ireland
33.	Barry O'Donoghue	PhD	2010	The ecology and conservation of Hen Harrier ( <i>Circus cyaneus</i> ) in Ireland
34.	Alex Copland	PhD	2009	Bird populations of lowland Irish farmland (with special reference to agri-environment measures)
35.	Vincent Murphy	MSc	2009	The use of landscape by the White-Tailed Eagle
36.	MJ Johnson-Beljaards	PhD	2008	The effects of forest clear felling on stream systems
37.	Sarah O'Reilly	PhD	2008	Composition of road runoff and impacts on freshwater ecosystems
38.	Benjamin Coughlin	PhD	2008	The toxicity of estuarine sediment to Clams, <i>Tapes semidecussatus</i>
39.	Eoin O'Callaghan	MSc	2008	The diversity of aquatic macro invertebrates in calcareous fen wetlands within an agricultural landscape
40.	Anita Donaghy	PhD	2007	Management of habitats on the Shannon callows with special reference to their suitability for Corncrake <i>Crex crex</i>
41.	Merita O'Connell	PhD	2007	Lead in Mute swans in Ireland: trends and patterns
42.	Karen Mullen	PhD	2006	Assessing the influence of lowland Afforestation on biodiversity: Crabaid beetles (Coleoptera, Carabidea) as potential bio indicators
43.	Guillaume Juhel	PhD	2006	Ecology of the zebra mussel <i>Dreissena polymorpha</i> with reference to algal toxins
44.	Anne Oxbrough	PhD	2006	The effect of Plantation Forests on ground dwelling spiders
45.	Katherine Kelleher	PhD	2005	The ecology of the Song Thrush <i>Turdus philomelos</i> Br. In Ireland
46.	Eileen Power	MSc	2005	The winter diet of the white throated dipper <i>Cinclus cinclus</i> in the western French Pyrenees: a comparison between regulated and a natural river
47.	Matthew Brierley	MSc	2005	Estimating the numbers of critically endangered, volcanically threatened Montserrat <i>oriole Icter oberi</i> : a critique of population estimation techniques
48.	Stuart Warner	MSc	2005	Stream Water quality during hydrological events: a telemetric automated sampling approach
49.	Alice d'Arcy	MSc	2005	Pesticide regulation and ecotoxicological information available on non-target species
50.	Gearoid Webb	MSc	2005	The impact of Road run-off on stream macro invertebrate community structure in south west of Ireland
51.	Deirdre Mullins*	PhD	2004	Biodiversity at landscape scale: GIS application in assessing optimal patterns of lowland afforestation
52.	Sharon Ni Shuilleabhain*	PhD	2004	Evaluating the use of in vitro bioassays for the ecotoxicological assessment of Irish estuarine sediments
53.	Caroline Hurley	MSc	2003	Habitat mapping, evaluation of semi natural grasslands and marsh and conservation recommendations for the North west region of Ennis and Environs
54.	Elaine Keegan	MSc	2002	Habitat mapping, assessment of semi-natural woodlands and proposal of conservation strategies for Co. Clare
55.	Worku Legesse	PhD	2001	Sensitivity of biotic indices to natural disturbances
56.	Alison Taylor	PhD	2001	The diet of the dipper <i>Cinclus cinclus</i> in south west Ireland
57.	Sinead Cummins	PhD	2001	The ecology of the Stonechat <i>Saxicola torquata</i>
58.	Pat Chan	MSc	2001	A GIS analysis of the changes in habitat and their impacts on waterfowl populations in Cork harbour
59.	Laras DeFaoite	MSc	2001	Waterfowl in cork harbour: changes in populations
60.	Catherin Hayes	MSc	2001	Trace metal concentrations in selected deep sea fish from the north Atlantic

61.	Pamela A Byrne	PhD	2000	Assaying sediment toxicity in Irish estuarine ecosystems using bivalve molluscs
62.	Bridget Lehane	PhD	2000	The influence of afforestation on fish populations
63.	Nick Robinson	MSc	2000	A study on the effects of oyster culture structures on birds and benthos of Cork Harbour, Ireland
64.	Sandra Irwin*	PhD	1998	Aspects of the growth and growth variation of cultured turbot <i>Scophthalmus maximus</i>
65.	Kevin O’Gorman	PhD	1998	Spatial and temporal variation of Macro invertebrate communities in forested and Moorland streams in southern Ireland
66.	Karen Delanty	MSc	1998	A comparison of the ecology of streams draining forested and non-forested catchments in southeast Donegal
67.	Paul O’Donoghue	PhD	1997	Ecological and genetic studies of the family Corvidae
68.	Glen Tyler	PhD	1996	The ecology of the Corncrake: with special reference to the effect of mowing on breeding biology
69.	Conor Clengahan	PhD	1996	The spatial and temporal variation in the freshwater ecology and hydrochemistry of an Irish Conifer afforested catchment
70.	Donacha Byrne*	MSc	1996	An investigation of the ecotoxicology of a tannery effluent to <i>Scribicularia plana</i> and <i>Neries diversicolor</i>
71.	Andrew R Walsh	PhD	1995	The pathways of chromium in an estuary receiving leather tannery effluent
72.	Paul Holt	MSc	1995	The bird communities of Kilcolman Wildfowl refuge in summer and winter
73.	Rob Koolen*	MSc	1993	The effects of felling on stream ecosystems
74.	Paul O’Donoghue	MSc	1992	The Behaviour of a wintering flock of Whooper Swans <i>Cygnus cygnus</i> at Rostellan Lake, Cork, Ireland
75.	Andrew Walsh*	MSc	1992	Some aspects of the metabolism of high chromium III inclusions in the diet of the thick lipped Grey Mullet <i>Chelon labrosus</i>
76.	Ed White*	MSc	1991	The impact of forestry on water chemistry and macro-invertebrates in Ireland
77.	Matt Carter*	MSc	1991	The impact of forestry on water chemistry and fish in Ireland
78.	Jane Evans	MSc	1990	The interactions between forestry and freshwater ecosystems in south west Ireland

\* Jointly supervised
